Orestis Mavroudis, Limone e Fragola, colour, mute, 5min, 2012

Orestis Mavroudis's "Limone e Fragola" is the fifth presentation of the project "Vitrina" and consists in a young girl holding an ice-cream cone. Feelings of awkwardness and dissatisfaction are generated and gradually intensify, as the ice-cream's weight becomes unbearable. This initiative aims to partially include the exhibition space, specifically only those parts that can be observed from outside; such as the display windows of the space, regardless of the commercial role of the area (art gallery, bookstore, or various types of shops). "Limone e Fragola" will be presented for 24 hours in the LeFutur display in Tirana from August 20 to September 20, 2026.

Orestis Mavroudis is a visual artist. He holds an MFA in Artistic Research from Malmö Art Academy and an MA in Visual Arts and Curatorial Studies from NABA in Milan. In 2017, he co-founded the online platform for contemporary art CURRENT Athens, and in 2019, he founded the artist-run project Closing Soon. In 2026, he completed Who Pays for the Marble?, a research project on the socioeconomic conditions of visual-arts professionals in Greece. His work has been presented in exhibitions across Europe.
